**Compliance with REACH regulation**

Please be advised that as the registration of raw materials (substances) for the manufacture of PET resins has had to be achieved by 30th November 2010 under the REACH (Registration Evaluation and Approval of Chemicals), we can advise our customers that we are only sourcing raw materials with the required REACH registration from accredited suppliers as per the regulation.

Please be aware that under the REACH regulation, polymers are exempt and do not have a registration number. As a policy we will not advise specific registration information, as our sources of PTA; MEG; IPA etc. vary dependent on product, and therefore the registration information is ownership of our supplier and does not relate to our production.

As registration requires the supplier of the substance to provide compliance with REACH we rely on our suppliers to confirm this which we have achieved.

Please therefore accept this certification that we are duly compliant with REACH for our products (polymers) supplied from UAB Orion Global PET, Indorama Ventures Europe BV, Indorama Ventures Poland Sp z o.o. and Indorama Ventures Química S.L.U.
